

Congratulations and thank you, on the purchase of your Dupont Corian® counter tops. Here are a few tips on how to care for, clean, and maintain your new counters. Solid Surface Solutions has already secured your ten-year warranty with Dupont. Should you have any questions regarding your warranty, please feel free to contact your solid surface sales associate or Dupont at 1-800-4-CORIAN.

Corian was created for a lifetime of easy care. Just follow the simple guidelines listed here to keep your Corian surfaces looking as fresh and new as the day they were installed.

### **ROUTINE CARE**

Your counter tops have a matte finish. Soapy water or ammonia-based cleaners will remove most dirt and stains from all types of finishes. To clean a watermark, wipe with a damp cloth; towel dry. Difficult stains may require the use of an ammonia-based cleanser and a household sponge with a blue Scotch Brite\* pad. To disinfect your Corian top, occasionally wipe the entire surface with diluted household bleach (1 part water to 1 part bleach.) Sinks may be cared for just as your counter, however, cleaning your sink may require you to fill the sink one-quarter of the way full with a 50/50 water/bleach solution. Let it soak for 15 minutes, then wash the sides and bottom as the solution drains.

### **PREVENTING OTHER DAMAGE**

In most cases, Corian can be repaired if accidentally damaged. However, be sure to follow the guidelines here to prevent any permanent damage to your Corian.

- Avoid exposing Corian to strong chemicals, such as paint removers, oven cleaners, etc. If contact occurs, quickly flush the surface with water.
- Remove nail polish with a non-acetone-based nail polish remover and flush the surface with water.
- Do not cut directly on Corian counter tops.
- Run cold water when pouring boiling water into the sink.

### **GUARANTEED QUALITY**

With proper care, the Corian surfaces in your home will stay looking like new. That's why every inch of Corian is backed by a ten year limited warranty. For even more quality assurance, when a Dupont certified or approved fabricator/installer installs your Corian, the entire job is warranted for ten years against fabrication and installation defects. And, if you decide to sell your home, Corian has the only warranty in the industry that is transferable to the new owners.
